Surprise Shower Honors Bride-to-Be

A number of friends gathered recently at the home of Mrs. J. M. Ladybrod, R.R. 4, Belleville, for a surprise shower in honor of Miss Josephine McCormack bride-to-be of the month.

The evening was spent in the making of a bride's book and a general gel-together.

After opening her many beautiful gith, "Job" graclously thanked everyone for their kindness to her and for the tangible expressions of their regard. Refreshments were served by the hostess.

EASY CULTIVATION

the A-C Way

New cultivators for CA and WD Tractors save both you and your crops. Here's how:

POWER SHIFT WHEELS move out to cultivating width with engine power. No DRIVE-IN CULTIVATORS are front-mounted without heavy lifting or re-spacing of inside sweeps. Gangs swing in place like a gate.

PARAULI LINKS pull sweeps into the ground quickly and naturally, keep them run-ning level at the right depth without forcing... DZIAYED HYDRAULIC LIFT keeps rear bar down until sweeps or shovels reach the end of the row.

Now is the time to get a cultivating outfit that really orks for you. Let us show you these new WD and CA

Production of FORD TRACTOR

We are happy to be able to tell you that the lawsuit brought more than four years ago against. Ford Motor Company, Detroit, Mich., and Dearborn Motors Corporation, Birmingham, Mich., by Harry Ferguson and Harry Ferguson, Inc. has been settled by agreement of the parties.

There are three points connected with this settlement which, as a present or possible future owner of a Ford Tractor, we want to make clear to you. Regardless of what you may hear to the contrary, these are the FACTS.

3 POINTS OF INTEREST To Our Present and Future Customers

Ford Motor Company will continue production of the present
Ford Tractor without interruption, and Dearborn Motors
Corporation will continue to market them nationally as in the
past, (in Canada, Pord Tractors and Dearborn Form ExpenLimited, through its 706 Ford-Monarch Dealers). By the end
of 1962, Ford Motor Company has agreed to make two simple
changes, and only two changes, in this means of operation and
Tractor. After those simple changes have been made, there is
nothing in the settlement of the suit to prevent Ford Motor
Company from continuing the manufacture of the present Ford
Tractor for as forg as it is my drone.

Ford Motor Company will continue to produce and Dear-born Motors Corporation will continue to supply, through a distributors and desiers, all repair parts for all past, present and future Ford Tractors.

2 Ford Tractors will continue to offer all the advantages of the parent system of hydraulic control, the present method of arteching and operating implements, and all other, features reaponable for their wide popularity. Dearhorm Motors will continue to offer its same complete line of implements.

A STATEMENT By Mr. Henry Ford II

"In normal times Ford Motor Company would carry such a suit to a final conclusion in the courts. These are not normal times. Under the circumstances we were glad to get rid of the litigation to avoid the expense, harssment, and fur-ther interference with our tractor business involved in additional years in the courts.

There's sunshine down in Ole Kaintuck', cunnel! Hey boy, two juleps, please—and hurry, yuh rascal.

Yassuh, this afternoon shortly after 5.30 if you're not luck; enough to be in Lexington, or wealthy enough to pay spot cash or an instalment on a television set, you'll be able to hear the thud of hoofs on velvet turf as the cream of American threeyear olds vie for the \$100,000 purse. And as the bangtail said to the mare as he munched a bunch of thistles, "That aint hay, sis-

But if was not always that way. Derly prizes have kept poor was a proper of the proper

Tasum, "that's gold in them that beets". As an evidence of the increased value of the stakes, when the Canadian horse Sir Barion won the Triple (Cowm (Derby, Freakness and Bel mont Stakes) in 1913 his aggregate loot of the three events amounted to \$37,7478.

When Amanit won all three in 1946 he rolled together \$208,429 worth of lush turf lettuce, or more than four times the purse won by Sir Barton.

Only seven horses have accomplished the feat of winning the triple crown; Sir Barton in 1919; Gallant Fox in 1930; Omaha, son of Gallant Fox in 1935; War Admiral, 1937; Whirlaway, 1941; Count Ficet, 1943 and Azault.

Speaking of racehorses, all British thoroughbreds are secondants of three founding stallions, Godolphins, Arabian, perior's Turk and Darley's Arabian.

Godalphin's Arabian, destined to become one of the most famous in the world had an amazing career. Originally he was and to King Louis STV of France as a gift from the Emperor of Morocco. The Emperor regarding it as the finest horse in the continy and hoped the king would ride him. But Louis was a tawy piece of royalty, did not tide him or breed him, and later gave him sway.

Some years later the horse was discovered hashing a gar-bage ear! in the streets of Faris by an Englishman named Coke, Coke a horsemlin of reporte recognised real lines, bought him for \$15.00 and shipped him to English de a patron Lord Godelphin. He mated his prize mare Rezama with the sitt horse and thus began one of the most fameus thereugh-bred strains in the world.

Incidentally, those of you who inteed listening to the radio airing of the Derby this atternoop, can tune in to Station CJBQ which will start broadcasting the classic at 5.15. The ration will also carry the Perakmess and Belmont Stakes, and Canada's turf epic, the Queen's Plate.

ROTECTS AGAINST BLOWO

CHANGES BLOWOUTS TO SLOWOUTS

Most blowouts start when you don't know it. A curb or a hole bruises the cords inside your tire. As the tire fiexes, a break occurs at the weak spot and the inner tube is forced into the gap. Here it is pinched and rubbed until auddenly, miles or perhaps days later, when you don't expect it, the tire blows out.
But with the B.F.G. Tubeless Tire

there is no tube to blow out. The air-retaining lining is actually a part of the tire-itself. If damage does occur, it can only cause pinhole leaks in the lining that lose air so alowly you have.—Hes in which to make a safe,

PROVEN ON THE ROAD

Developed, tested and perfected by B.F. Goodrich, the Tubeless Tire-has been used in the U.S.A for over four years by thousands of motorists. Their reports of phenomenal, trouble-free mileage are PROTECTS AGAINST PUNCTURES

SUGGESTION FOR MR. MARKIN
From Great Britain comes word that the Conservawe government in power there has decreed that bain

Which suggests to us that here is a field of social three which Canada's own Hon. Peul Martin has hither-lated to exploit, or even to explore and elderly chaps canada who have no hair, or very little hair. There is doubt that some of them could be induced to wear wigs, fer, Martin were to use his well-known adoquence in in-terior to opportune, or course, that the wig-is free.

Mr. Astrin might begin his campaign for the wearing for free wigs by pointing out that a free wig, along with a wearing the pointing out that a free wig, along with a complete was a second of the pointing out that a free wig, along with a leave that the pointing out that a free wig, along with a gay young haloe, capable of providing sertifus compan-mining on all norts of freiles and escapedes. THOSE CHEFS' FORKS

Newspaper readers will recall the occasion, some two three months ago, when one of the members of the use of Commons wondered aloud why in the world anda's armed forces should need 63,000 chefs' serving

well, no one ever undertook to explain why these 5,000 forks were ordered, but someone in authority has parently decided that no such number is needed.

According to Arthur Blakely, Otlawa correspondent f the Montreal Gazette, the order was first scaled down 42,000 and more recently to 12,000.

What's Making The Tribe, Senators, Dodgers, Giants Rule The Roosts?

CHIPS OFF THE SPORTS BLOCK By GEO. H. CARVER, Sports Editor

Three definite entries are Belleville Bedmen, Kingston nines and the Feterberough Peies, Smith's Fails, contacted tring last night's meeting of the COBL executive, expressivillar, one to enter the loop, the decision hinging on the icome of a meeting of a league down cast.

Kingston Ponies and Peterborough will open the league schedule at Peterborough on May 24th, the game starting at 7 p. m. Kingston will open at home on Monday May 24th with the Belleville Redmen as their guests. OFF AGAINS

Well, here it is. The long-looked for "sports epic of the week" anticipated by some 2,000 wrestling fans of the city and district starts in Memorial Arena Friday night when the

And look who's here! None other than the hardreck film! from down under, Fred Atkins, from Austrila, who appears in the main bonn with one Bo-fie Brazil a colored semation who has been cutting up fasty difects in and around Toroulo all winter, butting haves with Whisper Watson's manly beauty and in general creating hob among pachydrenic circles.

Atkins, they tell us, has lost none of the sweet disposition that would make a wounded grisly look like a demure bride, and he's just as rough, tough and masty, as he was when he funed out of the ring here last fail while 1,800 were after his gere, halr and any part of his nantomy.

Warren Beckwinkle who was popular here last year ap-pears on the semi-final with one Jim Weight while the per-ennial Fat Flangan, minus a few more hates will prelim with that villain Gount Zorra.

MAY STEAL SHOW!

Charlie Chase, sensational Hontreal welterweight, has been selected for the Canadian Olympio Bezing Team, ac-cording to a recent anneuncement. Chase was number Four selection out the team of ten I teather - pushers having wen the honor at the recent Olympic trials on the west coast.

All of which does not "scare" the equally sensational Eddie nos, RCAF Ayinner whom Chase meets in the second min ut at RCAF Station, Trenton Turnday night. Senso, whose ord-punching dashing style grained trumendous popularity for which light hand of the district accoupled years go, has, like a proverbial turkey, improved with age and at the moment be considered one of the bast lightens to some out of the RCAF

From this observer's angle of view, the Senos-Chase bout bids to steal the flunder from the Pinkey Mitchell - Frank Bolls h, billed as the main bout attraction. But it must needs neithing spectacular to do that, for Mitchell and Bolls are rated ong the tops in their respective localities.

Incidentally the judger for the RCAF show have been selected and include Bert Wells, well-known Belleville bearing authority and judget, Bert Pane, former professional fighter of Trenten and Sergeant Norman Samalo, well-known in sports circles here and at Station Trenton. The judging it seems, is in competent hands.

Sergeant Bobby Hoare, "Hub" Smith's competent "man Fri" will refree the preliminaries and one star bout, while the

The pint-sized softballers of the Belleville District Softball League's minor division have been organized under convenet fries Chief Gerald Vance and are practically all ready and set to po. The peewee league will consist of five teams, Booths TV's Isate pear's champions, Boyce's Garage, Kingston, Rotary and the Glen Roys (Ricre's that man BicNevin again).

There will be a special meeting of all boys of poewee are who want to play softball at the Firenen's Park, East Mo-ire Street iemerrow, Wednesday night starting at 7 p. m. and all youngsters who want to take part are requested to tarn out, so that teams may be selected.

The CAHA may find itself split right down the middle tr the, situation. To boot they will not only find them-ren with a vivolation on their hands but they may find smelves up arainst opposition reinferced by prefendent day.

Although mostfield, the story says, the National Hockey oness gerrences will oppose any move to boost the age suit, There is a feeling ise, that the big boys are prepared to their tharstire a breach of agreement between the profession i and annatur bookey rinks.

Totals most of the western provinces have come out in favor the hoost. They, of course, are looking at the possibility of correct revenue, not in Improving the hockey situation as a rhole. The Alberta administration openly admitted recently that unity hockey was their main source of income and that the hoost a gas would help tremendously.

Veteran coach Don Prantiston says the boost to 21 years will mean that a kid of 18 who now gets a chance to play junior hoo-key will have to wait until he is 17 or 18. Very few players real-ly develop after 18 and one in a million develops after 30.

"H will mean," said, Penniston, "that the junior are just point to carry a lot of deadwood for that extra year and kids who would stick around for a chance at 11 will quit and ply their takents to other trades. It would be a bad thing for the feature."

Penalision feels the extra year is spli going to help a young player. He says a player at 20 is elither ready or he into. At 20 kids like Moore, Chervetlik, Delvecchie and Geoffrien stepped right into the National Rockey Longues. That's the right say, ion. You can't teach them saything playing junior at 21.

Of late there has been talk of change of heart regarding the sosting of the age limit, says the Hockey News writer, Saukatewan, Manitoba and the Head of the Lakes'branch are said to ve made an about-turn and are now against any legislature ing these lines.

"... the willingness to find a way"

A man who started a new business a few years ago recently wrote to pay tribute to the bank's part in helping to make it a success:

"We were fortunate in having, as our banker, a man who could combine with experience the willingness to find a way that called not for experience alone but for imagination as well."

The chartered banks are forever alert to the fresh problems, the changing needs of their customers. At all times, in all your banking problems, you can depend on your local bank to bring experience and imagination to the task of helping you to "find a way".

By GEO. H. CARVER, Sports Editor

GLOVE OR NO GLOVE! There are some good-natured discussions going the rounds of the sotiball risites these mild spring days over the question of whether the permission to use a giver is a good move or otherwise. And believe il or not, some of the older voteram of the game are against such a move.

Originally, we understand the move was made to ben minor asthall players, to reduce large scores and keep ries down to a minimum. But since the hig boys are also feetied by the rule, an optional one, there has been some arguments pre and con.

These against using the give claim the fielder loses the "fourth" of the ball and believe it would be a hindraw rather than a help due to the dies of the "jull," We've been using the bare hands for some time now, and it can't see why he men want to mee a given. It as if delete on the can't see why hands are more delined as the property of the prope

These favering the use of the milt, maintain the given out down what might otherwise be errors—and given sliedly or more confidence. This department is not extending the ar-gument, but it could be said whever maned the game "soft-half" sever slopped a brand-new "apple" with his nose. There's nothing "soft" about it, the ball, not the mose.

Another player, an infielder, who has been playing the game for year, believes the glove 'gets in the way' when a hot grounder comes sixuling through the infield. A "axio" player who uses both hands to scoop up the ball, he claims in more liable to commit an error wearing a glove than otherwise.

Because of the greatly increased traffic hazards during a holiday period, I appeal to all our citizens to put forth special efforts to keep our Municipality free of accidents during the coming week-end.

These graceful and stately bien nials should be included in every garden. Their tall and rapid growth makes them most suitable for back-ground borders, against walls and to ground borders, against walls and to screen unishly views or fences. They grow to nine feet high and blossom from July until September, bearing large open flowers along a leafy main stem. Colours are red, salmon, white, pink and yellow. A new introduction is "Indian Spring", a variety which is most beautiful and will flower from seed in a few weeks

Hollyhocks should have rich, well drained soil, deeply dug and enriched drained soil, deeply dug and enriched with a good commercial fertilizer or well rotted manure. The addition of sand produces rapid root growth. Dead blooms should be kept picked off the flower stocks and should be cut down to the ground when all

By GEO. H. CARVER, Sports Editor

The historic Queen's Plate which this year is known by the setfenth title is one of the oldest races on the continent andeastly the most continuenty reas even in Netth Am-erica. The Toronto writer goes on to say that there were Queen Plates and King's Plates run for in Canada prior to 1839 bu carried on under these names by "loyal colonial sportune who probably had no better authority than their own attach ment to the British threne."

The origin of the present Queen's Plate is a petition signify the them Twente Turt Club sent to the Colonial Ortice Siz Edmund Hood, then Gevernor - General on April 1st, 38. The prayer of the petitioners was for a Gueen's Plate Sirty people.
